Subject: Don't delay public hearings on net metering (PSC Docket #2005-385-E)

Sep 24, 2013

Jocelyn Boyd  
101 Executive Center Drive, Suite 100  
Columbia, SC 29210

Dear Boyd,

I respectfully disagree with the decision of the Public Service Commission to indefinitely delay the public hearing on net metering (PSC Docket #2005-385-E) that was supposed to have been held this past September 12th, 2013.

I traveled recently to New England and saw solar power panels in several venues. I also have studied the possibility of using such power for businesses and family residences. Solar power offers potential valuable benefits to all South Carolinians. Solar power is the way of the future and we need to have informed discussion of the issue and a good, workable plan to go forward.

Please reconsider your decision and let's get the appropriate public hearings underway.

I recognize the PSC's responsibility to serve two masters: existing industry and the citizens of South Carolina. As a former State Representative (District 99, Berkeley County) I understand the pull and push of politics, but delaying or canceling hearings on the subject is not fair to the citizens.

After all, the PSC exists as a public body to best advance its own motto: "a fair, open, and efficient regulatory process that promotes cost-effective and reliable utility services." I hope that the Commission reconsiders streamlining its hosting of an open public discussion about net metering, in order to so carry-out its own vital role as a public service entity. Thank you for your consideration of this request to re-set a date to have this public discussion in the near future.

Sincerely,

Mr. Francis Archibald  
23 Wax Myrtle Ln
